OBITUARY TO THE PASSING OF TIM KUHNERT

**If love is the way
and memories stairs
we would follow you
and get you back.**

**You are not there where you have been
but you are everywhere where we are.**

We do miss Tim Kuhnert but at the same time we are extremely proud of him.

Tim has written history. Tim is a big hero. Heroes are not measured in their death but in their deeds. Without Tim many children would have lived a poor life. We think that

Tim accomplished more in his short life than many others in a much longer period of time and with far more possibilities. Thank you for everything Tim. We do not want to turn him into a martyr but we are proud that we were able to accompany him part of his way. Whoever looked into his sparkling eyes knew that Tim is and was a very special person. He lives on in our hearts and we will never forget him.

Tim Kuhnert, the founder of dolphin aid will keep inspiring all of us at dolphin aid. We will double our efforts. Dolphin aid will continue to grow. The support of studies about dolphin aid will enable further knowledge and will deliver additional proof about its efficiency. We will continue to emphasize dolphin therapy both in politics as in the health system.

NEW CELL PHONE RECYCLING FOR OUR CHILDREN

dolphin aid is continuously looking for new ideas how we could do even more for sick children and for those with special needs.

The managing director of Oxford Business News Mr. Platenberg called the managing director of dolphin aid Mr. Evers because he received from a lot of people positive feedback about the work of dolphin aid.

Oxford Business News contacted a recycling company which either recycles used cell phones or sells them to third world countries. Oxford Business News than informed its 1,1 million readers about dolphin aid, asking them at the same time to look for their used cell phones and send them to this recycling company. The respective profit goes as donation to dolphin aid. There will be no charge for sending in cell phones. Participants will receive a stamped envelope to send in their cell phone. Even older and broken cell phones can still raise a few Euro. The cooperation between Oxford Business News and dolphin aid will be long-term. "Once the project with the cell phones is successful we have a lot of new ideas that we will address together" says Mr. Evers, managing director of dolphin aid.

PERFECTLY DRESSED AND TRAINED

For a good cause respective T-Shirts had been sold to participants during the Safety Tour seminars.

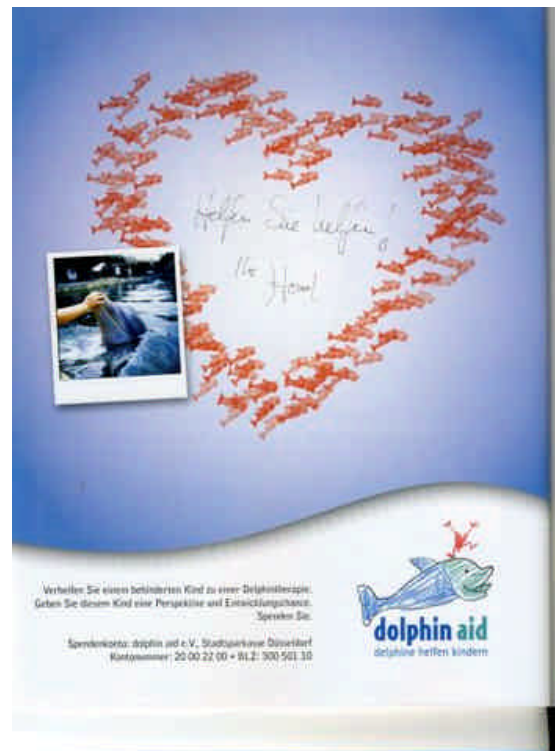

This years proceeds were donated directly to dolphin aid. The Safety Tour seminars are being held for the management of fire fighters. The S-GARD Team is supported by the company Weber Hydraulik, 3M and the company Gore. All together they raised 1.000 Euro.

Special Thanks to Mr. Bruno Schmitz, managing director of S-GARD.

**HOWARD CARPENDALE –
AMBASSADOR OF DOLPHIN AID**

Howard Carpendale donated one page in his tour program brochure to dolphin aid during his recent tour through Germany (April 28 to May 3).

OUR CHILDREN IN 2008

Meanwhile dolphin aid is far more than an organization that helps families with special-needs-children ideally, financially and with the organization of dolphin therapy. F

urthermore we engage politically in a better future for our children. We discuss the recognition of dolphin therapy with ministers and health systems. In our guide lines the proper keeping of dolphins is of high importance. Only "happy" dolphins work out of free will with our children thus contributing to them getting better.

DOLPHIN AID NEEDS YOUR DONATION ALSO IN 2008

Please donate now! Dolphin therapy for 82 children and their families was already successfully undertaken in the first and second quarter of 2008 alone.

GERMANY - LAND OF IDEAS

On October 10, 2008 dolphin aid will receive officially the trophy for "385 places in the land of ideas". Dolphin aid was selected among 1.500 participants. For the third year the "Initiative Deutschland - Land der Ideen" (Germany land of ideas) together with partner Deutsche Bank honors creative ideas with productive and creative po

wer under the patronage of president Koehler.

We are very proud of our achievement to receive such "Deutschland-Oscar", expresses Mr.Evers, managing director of dolphin aid happily.

OBITUARY TO THE DEATH OF PROFESSOR BERNARD BRUCKER

Unexpectedly Professor Bernard Brucker left us forever the night of February 15, 2008. He was the founder of the bio-feed-back method which he implemented successfully not only at the university of Miami but worldwide. In

Germany the "Ortho Center Munich" runs one from Professor Brucker supervised and after his

standards working bio-feed back laboratory under the management of Dr. Peter Bernis as well as chief therapist Ralf Nickel. Professor Brucker was a board-member of dolphin aid America as well as a member of the scientific board of dolphin aid America. He supported dolphin therapy with all his experience. Especially in the treatment of neurologically damaged children and patients he set new standards. Dolphin aid has tremendously profited from his advise. He will leave a big gap behind.
